Discover Ontario, Canada, and an exciting career with Ornge.

Position Available:	Medical Simulation Specialist
Position Status:	Part Time Permanent
Location:	5310 Explorer Drive, Mississauga, ON
Reporting To:	Director, Clinical Affairs

Position Summary:

- Is an integral, supportive member of the education team, primarily responsible for facility and equipment management and support.
- Works collaboratively with educators and facilitators to operationalize simulations and curriculum, including all aspects of planning, preparation, programming and testing for simulation activities;
- Teaches and orientates educators and facilitators on the safe and effective use of simulation equipment and technology within Ornge education programs;
- Maintain in-house training facilities and equipment, ensure smooth operation of equipment, coordinate and arrange for maintenance and repair work;
- Maintain the simulation centre as a clean, safe and operational education facility;
- Work with educators/facilitators to deliver and monitor simulation events/scenarios, including the operation of simulation equipment;
- Maintain experience in the use of simulation A/V equipment and multimedia software and provide initial technical support/trouble shooting;
- Participate in scenarios, including the role playing of healthcare professionals, family members etc;
- Plan, organize and oversee the logistics and resource support for all education and simulation activities. Specific duties include:
 - Coordinate and schedule the movement of equipment, supplies and materials for education activities across the province;
 - Technical and physical preparation and dismantling of simulation equipment;
 - Ensure all medical and non-medical equipment is maintained in good working order, including the completion of routine equipment maintenance, hardware and software upgrades as directed by manufacturer support;
 - Identifies and communicates the need for replacement equipment;
 - Maintain records of all medical and simulation equipment maintenance and repairs;

- Inventory control, including the ordering of all medical, non-medical and simulation supplies and replacement parts as required;
- Maintains professional skills and refines expertise through appropriate educational/development activities and professional affiliations.

Qualifications:

- Graduation from a post-secondary health discipline program (paramedic, nursing, respiratory therapy etc.); Background in a technical, IT or education related field may also be considered;
- Two years' experience working in a prehospital or acute care healthcare setting, and/or a health education environment or simulation learning environment;

Competencies:

- Knowledge of simulation best practices and the application of simulation technology;
- Knowledge of current products and technology used in medical simulation, including task trainers, medium and high fidelity simulators and multimedia software;
- Strong organizational skills with the ability to prioritize competing requirements;
- Excellent technical skills required to facilitate the use of simulation equipment and trouble shoot malfunctions;
- Proficient with the use of computer software, including MS Office Suite, Apple iOS and comfort with information technology;
- Strong analytical, problem solving and interpersonal skills;
- Ability to take initiative and work independently with minimal supervision;
- Adaptable, with the ability to work cooperatively with a team of healthcare professionals and educators;
- Willingness to travel within Ontario to support the delivery of simulation.
- Current valid COVID-19 vaccination unless an exemption has been granted on a medical ground pursuant to the Ontario Human Rights Code.

At Ornge, we are:

- Community connectors
- Equity in healthcare
- Strong in our convictions
- Proud of the services we provide
- Uplifting in our mission, values, and services

You can expect us to be:

- Promoters of diversity
- Champions of inclusion and accessibility
- Committed to your career advancement
- A tight-knit culture
- Competitive in pay, benefits, vacation time, and more

A bit about you:

- You're driven by the desire to make a difference
- Excited by problem solving, you excel at in-the-moment decision making
- Teamwork has always been where you thrive
- You're ready to put your skills into action in a fast-paced environment

What's next:

- If you're ready to uplift lives, we invite you to apply [on-line](#) no later than June 30, 2024.
- Your resume will be reviewed and only those selected for further consideration will be contacted.
- If you require a disability accommodation in order to participate in the recruitment process, please contact us at 647-428-2005 and request the HR Department to provide your contact information. Accommodation is available under the Human Rights Code and in accordance with the Accessibility for Ontarians with Disabilities Act. A Human Resources representative will contact you within 48 hours.
